

Please reject NAB petition 04-160. I rely on local traffic and weather via XM. I'm a DC area resident and I use the service daily. The service is particualry helpful when you drive from city to city. You don't have to know what another city's "traffic and weather on the 00:XX's" is. It is a great service.
LET FREE SPEECH PREVAIL. STOP THE CENSORSHIP.
